

For use in poultry, swine, veal, dairy, cattle, canine and horse operations.

KLEEN CRES is a combination of cresylic soap with other soaps providing 50% saponified cresylic compounds which when diluted with water is used for cleaning poultry and turkey houses, hog barns & other livestock buildings. **KLEEN CRES** can also be used to clean livestock trucks, stockyard pens, chutes and equipment. For all uses, mix 1 part KLEEN CRES with 200 parts water. Before using, remove all livestock, equipment and feed from the house. Remove as much litter and other debris from the building as possible. Spray or wash the building with KLEEN CRES using between 20 to 40 gallons per 1,000 square feet of floor space. Be sure to get the spray into all cracks and crevices for best results. Ventilate closed area before reentry or use. To clean equipment requiring a smaller amount of solution, mix approximately 2 ounces of KLEEN CRES with 3 gallons of water (1:200) and scrub all surfaces. Let stand for at least 10 minutes. Rinse thoroughly with clean water before using.

DIRECTIONS FOR USE

Poultry and turkey, swine, veal, dairy, cattle, canine and horse operations: Use KLEEN CRES for cleaning broiler houses, brooder, layer houses, livestock barns, farrowing pens, foaling pens, stalls, calf hutches, pig parlors, kennels, poultry crates, animal transport vehicles and farm equipment. KLEEN CRES is recommended for use on hard, non-porous inanimate surfaces such as finished concrete, finished wood, plastic, glazed tile, enameled, and metal surfaces of livestock handling equipment, housing and transportation equipment.

APPLICATION INFORMATION: Poultry and livestock must be removed from the premises during treatment. Do not re-house poultry or livestock before treatment is dried or set. Feeders and caterers should be removed from houses during treatment. When it is not possible to remove feeders and waterers, clean and rinse to remove all treatment residues before reuse. Avoid contact with feed or food contact surfaces. Apply solution with a brush, sponge, mop or be flushing with water under high pressure. For hand use, wear rubber gloves. When spraying this product, the operator should be protected from breathing the spray mist.

Net Contents: 1 gallon

FIRST AID IF IN EYES: Hold eyes open and rinse with water for 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Seek immediate medical attention.
IF SWALLOWED: Do not give anything by mouth to an unconscious person. Drink large quantities of water. Contact the poison control center for first aid advice. Do not induce vomiting unless told to do so by the poison control center. Seek immediate medical attention.
IF INHALED: Move person to fresh air. If the person is not breathing call 911, then give artificial respiration. Seek immediate medical attention.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 minutes. Seek medical attention if skin appears red or is irritated. Wash contaminated clothing before using again.
Have product label or Material Safety Data Sheet with you when calling the poison control center, doctor, or going for treatment.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage
PRECAUTIONARY STATEMENTS-Hazards to Humans and Domestic Animals
DANGER. KEEP OUT OF THE REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get into eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses), protective clothing, and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.
Environmental Hazards This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of EPA.
Physical or Chemical Hazards Do not use or store near heat or open flame or in car. Do not mix with soap, anionic detergents, or oxidizers.
Storage and Disposal Do not contaminate water, food, or feed by storage or disposal.
PRODUCT STORAGE: Store in original containers and place in locked storage area. Keep from freezing.
SPILL OR LEAK PROCEDURES: Small spills may be mopped up or flushed away with water or absorbed on some absorbent material and incinerated. Large spills should be contained; the material then moved into containers and disposed of by approved methods for hazardous wastes.
PRODUCT DISPOSAL: Product wastes are hazardous. Improper disposal of excess product, spray mixture or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Product or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL: Do not reuse empty containers. Triple rinse (or equivalent). Then offer the container for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or for incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
GENERAL: Consult Federal, State, or local disposal authorities for approval of alternate procedures such as limited burning.
