| 2. Hazard(s) identification                  |  |
| Physical hazards                             | Not classified.  |
| Health hazards                               | Not classified.  |
| OSHA defined hazards                         | Not classified.  |
| Label elements                               |  |
| Hazard symbol                                | None.  |
| Signal word                                  | None.  |
| Hazard statement                             | The mixture does not meet the criteria for classification.                               |
| Precautionary statement                      |  |
| Prevention                                   | Not available.   |
| Response                                     | Not available.   |
| Storage                                      | Not available.   |
| Disposal                                     | Not available.   |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |
| Supplemental information                     | Contains 1,2-BENZISOTHIAZOL-3(2H)-ONE. May produce an allergic reaction.                 |

## 3. Composition/information on ingredients

Mixtures

| Chemical name          | Common name and synonyms   | CAS number  | %                      |
|------------------------|--|-------------|------------------------|
| 1,2-BENZISOTHIAZOL-3(2 | H)-ONE   | 2634-33-5   | 0.04                   |
| Spinosad               |  | 168316-95-8 | 44.2                   |
| Composition comments   | ents Spinosad is a mixture of the following components: Spinosyn A (CAS# 131929-63-0) and D (CAS# 131920-60-7).            |             | 929-63-0) and Spinosyn |
|                        | Remaining components of this product are no<br>below reportable levels.<br>The full text for all H-statements is displayed | •           | nt at concentrations   |

### 4. First-aid measures

| Inhalation   | Move to fresh air. Oxygen or artificial respiration if needed. Call a physician or poison control center immediately.  |
|--|--|
| Skin contact   | Wash off immediately with plenty of water. Take off contaminated clothing and wash before reuse. Get immediate medical attention.  |
| Eye contact  | Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Call a physician or poison control center immediately.   |
| Ingestion  | If swallowed, rinse mouth with water (only if the person is conscious). Never give anything by mouth to a victim who is unconscious or is having convulsions. Call a physician or poison control center immediately. |
| Most important<br>symptoms/effects, acute and<br>delayed                     | None known.  |
| Indication of immediate<br>medical attention and special<br>treatment needed | None known.  |
| General information  | In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).  |
| 5. Fire-fighting measures  |  |
| Suitable extinguishing media   | Alcohol resistant foam. Water. Carbon dioxide (CO2). Dry chemicals.  |
| Unsuitable extinguishing media   | Not available.   |
| Specific hazards arising from  | Fire or excessive heat may produce hazardous decomposition products.   |

Special protective equipment and precautions for firefighters

the chemical

#### 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | See Section 8 of the SDS for Personal Protective Equipment.   |
|---|---|
| Methods and materials for<br>containment and cleaning up                  | Soak up with inert absorbent material. Large spills due to traffic accidents, etc., should be reported immediately to CHEMTREC and Elanco Animal Health for assistance. |
| Environmental precautions   | Do not discharge into drains, water courses or onto the ground. Avoid discharge to the aquatic environment.   |

Wear self-contained breathing apparatus and protective clothing.

## 7. Handling and storage

| Precautions for safe handling | NOT INTENDED FOR HUMAN USE. Keep out of reach of children. To avoid risks to human health |
|-------------------------------|---|
|                               | and the environment, comply with the instructions for use.                                |

Store in original container. Keep away from food, drink and animal feedingstuffs.

Conditions for safe storage, including any incompatibilities

### 8. Exposure controls/personal protection

| Biological limit values             | No biological exposure limits noted for the ingredient(s).  |  |
|-------------------------------------|---|--|
| Exposure guidelines                 | Supplier: TWA 0.3 mg/m3 (Spinosad)  |  |
| Appropriate engineering<br>controls | Use appropriate control measures such as fume hood, ventilated enclosure, local exhaust ventilation, or down-draft booth.   |  |
| Individual protection measures, s   | such as personal protective equipment   |  |
| Eye/face protection                 | Wear safety glasses with side shields (or goggles).   |  |
| Skin protection                     |   |  |
| Hand protection                     | Chemical resistant gloves.  |  |
| Other                               | Chemical-resistant gloves and impermeable body covering to minimize skin contact.   |  |
| Respiratory protection              | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the respirator. Use an approved respirator. Select appropriate respirator for physical characteristics of material. Select respirator with appropriate protection factor. |  |
| Thermal hazards                     | Not applicable.   |  |

General hygiene considerations

When mixing and handling, use protective clothing, impervious gloves, and dust respirator (recommended). Operators should wash thoroughly with soap and water after handling. If accidental eye contact occurs, immediately rinse with plenty of water.

### 9. Physical and chemical properties
